Missing Safety Footwear in Low-Hazard Area

Observation / Narrative

An employee was observed walking through the office area without the required safety shoes. No hazardous activity, exposed energy source, work at height, lifting operation, or other high-consequence exposure was identified.

Immediate Action Taken

The employee was reminded of the applicable PPE requirement and advised to use the required footwear when entering operational areas.

DEMO USE ONLY: Synthetic demonstration report created for testing the PrecurAi prototype. Not an actual OIL incident record.
